

KMS BUS Readers

The KMS SimpleKey BUS readers provide all the benefits of KMS residential access control, for use with legacy fobs and other ID devices.

- **Compatible** with most types of legacy fobs including KMS Shark Tooth PAC, Entrotag etc.
- **Panel Mount** reader uses the industry standard 40mm aperture enabling the reader to fit into most new and existing door entry panels.
- **Vandal Resistant** reader employing a robust stainless-steel case and fully potted electronics that can be used in environmentally challenging conditions.
- **Works exclusively with** SimpleKey 4 systems.
- **Unique** light-up design (Blue/Red/Green) making identification easier and giving a number of engineering functions, as well as whether access is allowed or denied.
- **Robust** British designed and built readers for UK housing providers and comes with a life time guarantee.

Installation

The **Panel Mount** reader is designed to be mounted within metal panels, no thicker than 2mm with a 40mm square cut-out for the front.
Dimensions: 55mm x 55mm square x 11mm deep.

The **Vandal Resistant** can be fixed to any non-metallic surface using the supplied, vandal resistant screws.

Dimensions: 100mm x 100mm square x 13mm deep.

The **Surface Mount** reader is designed to be fixed directly onto a wall or pedestal.

Dimensions: 100mm x 100mm square x 40mm deep.

Connected using standard Cat 5 or above cabling in a free topography format.
